HERTFORD.

Nov 23

Dear I.

Thank you for  
your letter: I should  
very much like a small  
branch of Aucan's  
Ruler: about 12 inches  
long. Perhaps you can

Send a cone another  
year. I also want  
*Maucani Brodiaeae*  
*coningi* and

*Litocedrus cheleanii*  
" *doniana*  
" *tetrayona*

a fruiting branch about  
9 inches long to photo  
These may grow with  
you. Would you like  
any seed of list as  
over.

Yours  
Truly

Dr. Clinton Baker
