Dear Dr. Henriques

The Tropical African
Dioscoreas are, I
think, as follows,

A. *Dioscorea biphylla*, L.
= *Helmiã dumetorum*
Kunth

C. *D. satureia*, Linn. Hort.
Cliff. t. 28 = *Helmiã*
brevifera, Kunth,

B. *D. alata*, L.
D. *D. prehensilis*, Benth.
Yours truly J. G. Baker
