Dear Sir:

Your letter of January 9 is received. I am indeed glad to learn that the seeds of Kokia rockii which we sent to you have done so well.

With regard to your inquiry as to where this tree is described I would say that we are enclosing herewith a publication of the Smithsonian Institution, in which this genus is described by Mr. F. L. Lewton.

I trust this bulletin will contain the information you need.

Very sincerely yours,

A handwritten signature in cursive script that reads 'Peter Bisset'.
