

20. 4. 94.

Sir

I can only repeat that I should be glad to purchase specimens of the indigenous plants, both phanerogams and cryptogams, of the Cape Verde Islands; and if you will make up

and forward
a set, as
far as your material
goes, I will send
you a remittance
at the rate named
in my former letter.

I regret that I
am unable to send
you a list of the
plants collected
by Ulme Edwards

in Brauco island.

With regard to
Ch. Darwin's "Geological
Observations on Volcanic
Islands," 1844, I can
only recommend you to
apply to Messrs.

Dulau & Co

37 Soho Square

London W

I am Sir

Yours faithfully

W. L. Thirlstan-Dyer
