

Herbarium

May 27 1886

Dear Dr. Henriques

I have duly received the second set of ferns & send the list. The *Aspleniums* are very puzzling. I doubt whether *vajans* is really distinct from *Sanderstoni*. We have not had *arborescens* before from West Tropical Africa. Yours truly
J. G. Baker

- 13 Pellaea Loricata Hook
 14 Pteris quadricaudata Ach
 15 abovirens, Willd
 16 incisa, Thunb,
