Since many months,
dear Professor Henriquez,
I have, been so much
harrassed with local
Office-works of ur-
gency, that I lost
sight of, even your
kind intention
to translate the
"Select Plants", if
a Publisher there can
be found. Will you
be so friendly, to let
me know, whether
I omitted to fulfil
any promises for

your effecting the
translations. In
the very depressed
financial state of
this Colony my at-
tention is diverted
from almost anything
except the practical
interests of the rural
population here.

Can I send you any-
thing specially for
the Garden or
a "Kilber"?

With respectful re-
membrance yours
Frederic Mueller
