M. XII

Monsieur,

15 DEZ 83  
M. B. P. 10

For the next year I intend to collect plants for exchange. As you desire plants of Europe for those of Portugal (cf. Cassino, the International Scientific Directory), I permit myself to offer you the Phanogamiae et Cryptogamiae of the province of Franconia. If you wish to exchange plants with me, I beg to send you a catalogue of those that I have available for exchange. Then I will address you the list of my offers. Dried plants, broken or uninteresting, will not count in the calculation. An exemplar of a very large plant or a very rare one, for the average it is worth 2 to 4, while for the smallest ones it is worth at least five. With much respect

P. Täubert,  
Membre de la Société Botanique de Franconie
