

BRITISH MUSEUM (NATURAL HISTORY),

CROMWELL ROAD,

LONDON, S.W.

Saturday
Oct 12. 1895

Dear Sir,

Many thanks for so
kindly answering my letter
& also for taking so much
trouble about the matter.
Your answer very much
interests me I think some
time soon I shall have a

short paper about it in
the Journal of Botany & quote
if I may your opinion.
I do not think *P. Gronowii*
var latifolia has been recorded
for Britain so it may interest
the British botanists.

I have consulted Mr Britton
as to whether we could buy
the Herbarium you mention

and I regret to say he says
we cannot - as we already
are very fairly off for
Portuguese plants.

The other day I had a
young Frenchman to see
one who was anxious to
form a European Herbarium
& wanted to purchase
plants. I will give you his
name if you think it
worth while to write to him
he might be a possible

purchase

Cte de Boissier

member of the Soc. Bot. de France

40 rue Darbet de Louy

Paris.

With kind regards

Yours truly

Edmund G. Baker.
