

Kew, Oct. 25. 83

Dear Sir,

In reply to your letter  
of Oct. 17 I can only  
say that your seed  
~~is~~ undoubtedly belongs  
to a Sterculia but  
what species the

Material does not  
enable us to determine

The parcel of plants  
which you wrote 18/7/83

to say that you

were sending us

new issues to

have come to hand

Behavi me

Yours truly

W. R. Threlton Dyer
